

Details

Each kit includes:

G13 T8 bi-pin sockets (tombstones)

Available Kits

(8-4I) Conversion Kit
8-ft lamps to four 4-ft lamps

(2-2I) Conversion Kit
8-ft lamp to four 4-ft lamps

8-4I conversion kit can be reconfigured in the field to 2-2I kit, saving the end user the trouble of having exact counts on both fixtures.

Features

- Low maintenance cost
- Suitable for all G13 T8 bi-pin LED tube (double-end LED tube is strongly recommended for safety reasons)
- Pre-wired conversion kit bracket for easy installation
- Nice white-paint glossy finish for professional look
- Pre-drilled holes for 8-4I to 2-2I conversion and ballast cover installation

Product Compliance & Certifications:

- UL Certified

Description

Aleddra's T8/T12 conversion kit is designed for an 8-ft linear fluorescent tube retrofit. Aleddra is well known for its EasiRetroFit® double-end LED tube among lighting professionals. The LED tube and the conversion kit will give you energy efficiency and low costs for all your lighting retrofit projects.
